

MOBILITY PLUS

FOR athenaPractice™

SAVE VALUABLE TIME WITH MOBILE ACCESS TO SCHEDULES AND PATIENT INFORMATION

As a medical practitioner, you're constantly on the move. Whether you are checking in with patients on the go or making rounds in the hospital to see a patient, precious minutes are wasted if you do not have the information you need.

MOBILITY PLUS is the perfect companion and interfaces with athenaPractice.

Experience the Power of athenaPractice on Mobile Devices

MOBILITY PLUS FEATURES

- Real-time data access from any secure device.
- Mobile secure access to live data.
- View schedules and add new appointments.
- Patient look-up demographics and clinical view.
- Add new patients with minimal data.
- Add flags and send them to appropriate staff.
- View productivity reports on the fly.
- Real-time and remote charge entry to athenaPractice.
- Use when rounding patients in the hospital.
- Shared rounding list, add or remove from rounds.
- Re-bill (Tx) from the previous visit.
- See who has been billed for the day and who has not.
- Maintain up-to-date lists of your patients and see your associates' patients when rounding at night or on weekends.
